

Additional information

More information on the Radboud Certificate Programmes, such as descriptions of the programmes and an overview of the courses corresponding to these programmes, can be found on www.ru.nl/rcp.

On the Learning Agreement provided by our university during the admission procedure, you can indicate which RCP you want.

In the event you do not wish to make use of these carefully compiled programmes or would like to add more courses to them, you are of course free to choose any course taught in English, provided it has been approved in your Learning Agreement.

Radboud Certificate Programmes

2012/2013 | www.ru.nl/rcp

Radboud University Nijmegen has developed special Radboud Certificate Programmes (RCPs) for international (exchange) students. These programmes consist of courses that have been clustered around themes that are of major importance and interest to today's students.

Research has shown that international alumni and current students of Radboud University find Certificate Programmes broaden their knowledge. In the interdisciplinary programmes students can take courses from other faculties than their own, learning different approaches to their subjects. Obviously, these value-added programmes boost students' academic curricula.

The RCPs consist of three to five coherent modules (approximately 20 ECTS). Each Certificate Programme has its own coordinator, who acts as the contact person for students who have registered for that programme. After successful completion of a Certificate Programme the student will receive an official Radboud Certificate signed by the Rector Magnificus of Radboud University.

Students can send in their applications (via the normal admission procedure, which can be found on www.ru.nl/exchangestudents) before the deadline of 1 June (1st semester) or 1 December (2nd semester).

The following Certificate Programmes have been compiled for the academic year 2012/2013. For details, please visit www.ru.nl/rcp or contact the Faculty involved.
