THEMIS students coming to the Singapore Management University ("SMU") are required to take and pass a course load of four course units (4CUs) from the courses listed in the table above in order to be eligible for the THEMIS Joint Certificate.

If required by the student's home university for the student to take a course load of five course units (5CUs), so that the student can still be eligible for the THEMIS Joint Certificate even if they fail one course unit (1CU), the student must choose four course units (4CUs) from the courses listed in the table above and one course unit (1CU) from the general course program.

Although the School will endeavour to cater to each student's selection of courses, the School is not able to ensure that all students will get the courses of their first choice (i.e. due to limited slots in each course, competition for seats, and class size). THEMIS students should bid for the courses in the manner that they will be briefed on regarding the BOSS Bidding process. Students should not approach the faculty directly to request to enter courses or demand to take a course (e.g. by claiming that the course is a mandatory one).
